FINAL REPORT
SAMPLE SCHOOL
SAMPLE · INVENTED DATA

GRADE 11 · GROUP A · FEBRUARY 2027

Day one and the final test.

Every student, side by side with day one.

The day-one diagnostic and the final full-length test, side by side for each of the 18 students in Group A, after 40 hours of teaching.

FROM DAY ONE TO THE FINAL TEST

01 Day one
the diagnostic, 7 Nov

02 The program
40 hours of teaching, 20 sessions

03 The final test
full length, 20 Feb

THE GROUP
Grade 11 · Group A · 18 students

SAT BOTH TESTS
17 of 18 students

ISSUED
25 February 2027

The group averaged 1,165 on the final test, 137 points above day one.

17/17
students scored higher than on day one

+120
the median gain: half gained more, half less

13/17
students gained 100 points or more

97%
of sessions attended, 348 of 360 student-sessions

WHAT WE SEE

01 **Every student who sat both tests scored higher.**
The same 17 students averaged 1,028 on day one. Student 16 did not sit the final test and is not in these figures.

02 **The largest gain was +280 points.**
By Student 06. The smallest change was +30.

03 **Both subjects moved together.**
The two subjects moved within 9 points of each other; the averages are on page 4.

04 **The Foundation level gained the most.**
73 points more than the Advanced level, on average.

05 **Fewer questions were left blank.**
79 questions were left unanswered on day one, by 15 students; 10 on the final test, by 5. Pacing stays in the plan until the official SAT.

WHAT WE RECOMMEND

1. Share each student's line on page 3 with the student and their family.
2. Talk with Student 16, who missed the final test, before the official SAT.
3. Keep timed practice going until the official SAT, so every student reaches the last question.

Student 04	860	**950**	**+90**	+70	+20
Student 16	1,290	missed	—	—	—

The 5 students with the lowest day-one scores moved +176 points on average; the 5 with the highest moved +106. R&W and Math show each student's change in that subject, out of 800. Student 16 did not sit the final test.

Both subjects moved, by about the same.

STUDENTS BY SIZE OF GAIN · POINTS

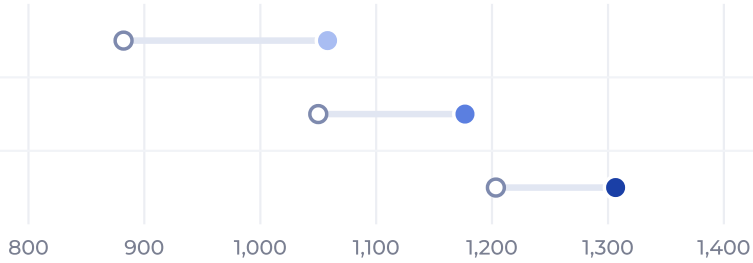

Points gained from day one to the final test. Each column counts students, of the 17 who sat both; “Lower” means below their day-one score.

BY SUBJECT · AVERAGE OUT OF 800

The bar is the final-test average and the black mark is day one, for the 17 students who sat both.

BY PRACTICE LEVEL · AVERAGE SCORE

LEVEL	DAY ONE	FINAL	CHANGE
Foundation 5 students	882	1,058	+176
Developing 9 students	1,050	1,177	+127
Advanced 3 students	1,203	1,307	+103

Levels are the practice levels set from the day-one results. Every level followed the same lessons, with its own practice sets.

About the numbers. Day one is the TestPrep diagnostic, a full 2-hour SAT-format test, sat on 7 November 2026. The final full-length test was sat on 20 February 2027, after 40 hours of teaching. Both are scored on the SAT scale: 400–1600 in total, 200–800 for each subject. Every change compares a student with their own day-one score, and the averages count the 17 students who sat both tests. Unanswered questions are the ones left blank. Attendance counts the 20 sessions held. Source: Invented sample data.
