

SAT EMPOWERMENT PLAN · OCTOBER 2026

Sami's empowerment plan.

A starting point to grow from.

A calm, supportive program that builds both sections from the foundations and makes sure you reach every question. Fourteen two-hour sessions, paced to you.

YOUR ROUTE

01 Day one
diagnostic 760 · English 370 · Math 390

02 The plan
14 sessions · 28 hours

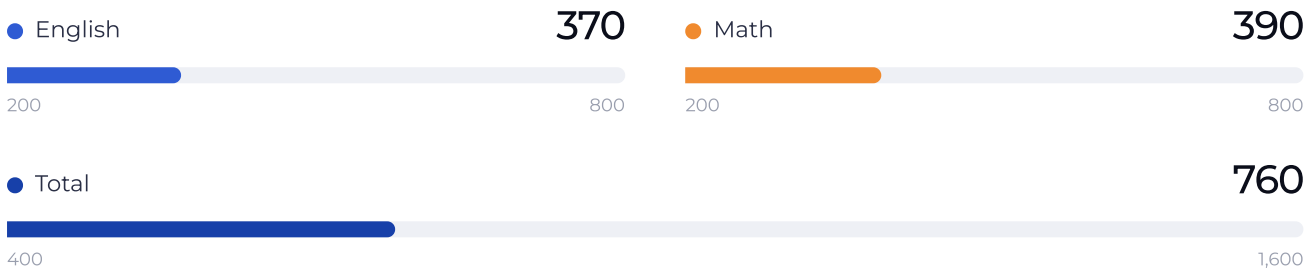

03 The goal
growth you can see, step by step

PREPARED FOR	YOUR PLAN	ISSUED
Sami Sample	14 × 2-hour sessions	October 2026

Your starting line is 760, with room to grow in both sections.

Both sections start near the foundations, and time ran out before the last 18 questions. Reaching every question is a real, early gain.

YOUR DIAGNOSTIC, SECTION BY SECTION

80/98	34%	100%
questions answered	right, of the questions answered	of the time used

WHAT IS WORKING

- You stayed with the test to the end and attempted 80 of 98 questions.
- The 18 questions you did not reach are points available simply by finishing.
- Both sections are open, teachable ground: there is a lot of growth ahead.

WHAT WE BUILD NEXT

- Both sections grow most from calm, step-by-step teaching across the whole syllabus.
- A pacing routine, so you reach every question in both sections.
- One concept at a time, revisited until it feels secure.

YOUR FOCUSES, IN ORDER

01

Reaching every question

A pacing routine and smart guessing, so no question is left empty. There is no penalty for a wrong answer.

A real, early gain.

02

English, from the foundations

Standard English Conventions first (rule-based, learnable points), then Craft and Structure, Information and Ideas, and Expression of Ideas.

Steady English growth.

03

Math, from the foundations

Algebra, Advanced Math, Problem-Solving and Data, and Geometry, made visual with Desmos.

Steady Math growth.

Every session builds the skill, then turns it into points.

Master the content, reach every question, build steady confidence: each session builds on the one before it.

SESSION TYPE 1

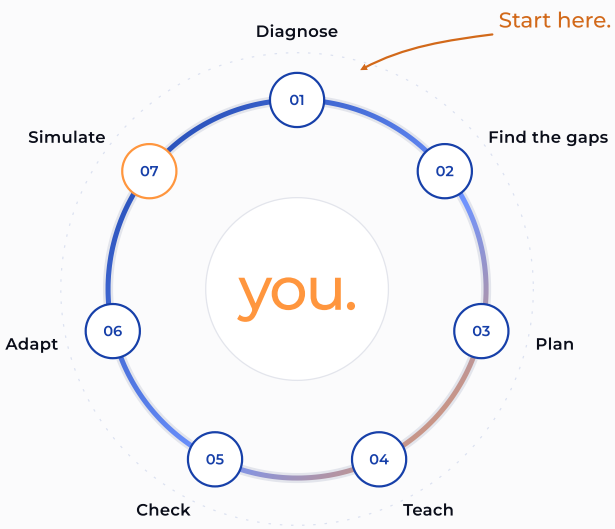

Content mastery

Build every skill from the foundations, taught calmly before timed: understanding and confidence first.

SESSION TYPE 2

Strategy & technique

Turn skills into points: a pacing routine, smart guessing, Desmos and elimination, introduced gradually.

01 Diagnostic Assessment
Your real starting point, found before a single lesson.

02 Performance Gap Analysis
Every gap mapped by skill, topic and type of mistake.

03 Personalized Learning Plan
A roadmap built around your goal.

04 Targeted Instruction
Lessons aimed at what moves your score most.

05 Micro-Assessments
Short checks that prove each skill has stuck.

06 Adaptive Optimization
Your plan shifts as your results do.

07 Full-Length Simulation & Iteration
Real test conditions. Then the loop runs again.
