Test Prep

SAT CUSTOMIZED ROADMAP · OCTOBER 2026

Alex's SAT roadmap.

Your climb, step by step.

Your Math is already a real strength to sharpen. English is the clear lever, and the diagnostic shows exactly which skills hold the points. Twelve two-hour sessions, milestone by milestone.

YOUR ROUTE

01 Day one
diagnostic 1,090 · English 510 · Math 580

02 The plan
12 sessions · 24 hours

03 The goal
1,300, 210 points up

PREPARED FOR
Alex Sample

YOUR PLAN
12 × 2-hour sessions

ISSUED
October 2026

You start at 1,090, with English as your clear lever.

A solid base at 1090. Math is a real strength; English is where most of your points are, and the detailed report names the exact skills.

YOUR DIAGNOSTIC, SECTION BY SECTION

English 510

200 800

Math 580

200 800

Total 1,090

400 1,600

95/98	61%	88%
questions answered	right, of the questions answered	of the time used

WHAT IS WORKING

- Math is a genuine strength at 580, with Linear functions, Ratios and Circles fully secure.
- English has strong anchors too: Central Ideas and Words in Context.
- You answered 95 of 98 questions, so the plan can focus on skills, with pacing kept in view.

WHAT IS HOLDING YOU BACK

- English (510) is the clear lever, led by Inferences and Command of Evidence.
- Two Math spots need sharpening: Equivalent expressions and Two-variable data.
- 1,300 is a real reach (+210): most of it comes from English, with Math held strong.

YOUR FOCUSES, IN ORDER

01 **English: the reading gaps**

Inferences, Command of Evidence and Cross-Text Connections: a repeatable method for reasoning from the text.

The largest English lever to 1300.

02 **English: lift the middle skills**

Transitions, Rhetorical Synthesis, Text Structure and Boundaries, toward where your strongest skills already sit.

Steady, high-value points.

03 **Math: sharpen two spots**

Equivalent expressions and Two-variable data, with Desmos to make them visual.

Turns a strong section into a dependable one.

04 **Math: hold the strengths**

Keep Algebra, Ratios and Circles sharp with timed practice, so English gains add on top.

Protects the Math score.

Five skills hold most of your points.

YOUR DIAGNOSTIC, SKILL BY SKILL

Your results per skill from the detailed report: the share of questions you got right. Focus: where most points are. Build: lift toward your best. Keep: protect what is already strong.

ENGLISH

INFORMATION AND IDEAS

Inferences	20%	FOCUS
Command of Evidence	38%	FOCUS
Central Ideas and Details	75%	KEEP

CRAFT AND STRUCTURE

Words in Context	71%	KEEP
Text Structure and Purpose	50%	BUILD
Cross-Text Connections	33%	FOCUS

EXPRESSION OF IDEAS

Transitions	57%	BUILD
Rhetorical Synthesis	50%	BUILD

STANDARD ENGLISH CONVENTIONS

Boundaries	60%	BUILD
Form, Structure, and Sense	67%	KEEP

MATH

ALGEBRA

Linear functions	100%	KEEP
Systems of two linear equations	67%	KEEP
Linear inequalities	75%	KEEP

ADVANCED MATH

Equivalent expressions	40%	FOCUS
Nonlinear functions	60%	BUILD

PROBLEM-SOLVING AND DATA ANALYSIS

Ratios, rates and percentages	100%	KEEP
Two-variable data	33%	FOCUS

GEOMETRY AND TRIGONOMETRY

Circles	100%	KEEP
Right triangles and trigonometry	50%	BUILD

5
skills to focus

6
skills to build

8
skills to keep

WHERE YOUR PLAN SPENDS THE MOST TIME

Your sessions give the most time and practice to Inferences (20%), Command of Evidence (38%), Cross-Text Connections (33%), Equivalent expressions (40%) and Two-variable data (33%). The **Build** skills come next, and the **Keep** skills stay sharp with timed practice.

Every session builds the skill, then turns it into points.

Target the exact skills, sharpen the Math, protect the strengths: each session builds on the one before it.

SESSION TYPE 1

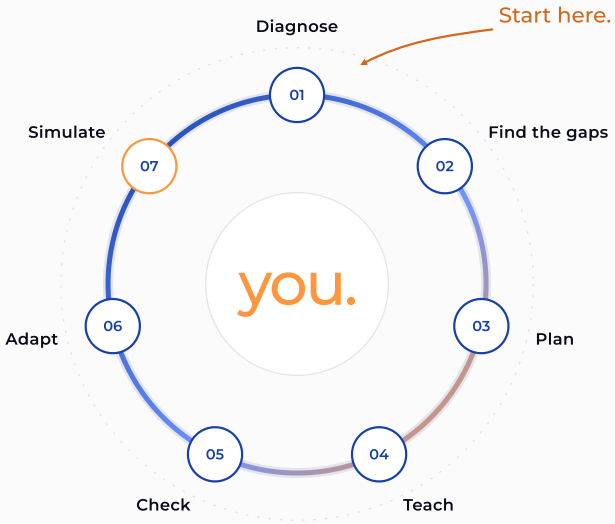

Content mastery

Build the weak English skills and sharpen the two Math spots, taught before timed: mastery before speed.

SESSION TYPE 2

Strategy & technique

Turn skills into points under real pressure: the reading method, Desmos, elimination and question-type tactics.

01 **Diagnostic Assessment**
Your real starting point, found before a single lesson.

02 **Performance Gap Analysis**
Every gap mapped by skill, topic and type of mistake.

03 **Personalized Learning Plan**
A roadmap built around your goal.

04 **Targeted Instruction**
Lessons aimed at what moves your score most.

05 **Micro-Assessments**
Short checks that prove each skill has stuck.

06 **Adaptive Optimization**
Your plan shifts as your results do.

07 **Full-Length Simulation & Iteration**
Real test conditions. Then the loop runs again.

12 sessions, 24 hours, 2 full-length simulations.

A focused 24-hour program toward 1,300: English built skill by skill, Math sharpened and protected.

One-on-one · 12 two-hour sessions (about 24 hours) · English-weighted · Desmos woven in · content, then technique.

Content mastery · Strategy & technique · 00 Full-length simulation

01	CONTENT	English: Inferences and Cross-Text Connections, building the reading method
02	CONTENT	English: Command of Evidence, finding the line that proves the answer
03	CONTENT	Math: Equivalent expressions, with Desmos
04	CONTENT	English: Transitions and Rhetorical Synthesis
05	CONTENT	English: Boundaries and Text Structure
06	TECHNIQUE	**Full-length simulation 1, then a full review**
07	CONTENT	Math: Two-variable data and right-triangle trigonometry
08	CONTENT	English: the harder reading items, at pace
09	CONTENT	Math: timed Algebra and Advanced Math, holding the strengths
10	TECHNIQUE	Question-type tactics, elimination and timed drills
11	TECHNIQUE	**Full-length simulation 2, then a full review**
12	TECHNIQUE	Weak-spot re-teach and the push toward 1,300

12 two-hour sessions is an honest scope for +210 from 1090. Two full-length simulations are built in. The calendar follows your test date.

1,090 to 1,300, in 4 steps.

MILESTONES ON THE WAY TO 1,300

Checkpoints on the way, not guarantees. Most of the gain comes from the English work; Math is held strong.

A

Skills loop

Every 2 weeks

A short skills check: is each skill sticking?

B

Progress loop

Every 4 weeks or so

A timed practice section: accuracy and pace across the test.

C

Milestones

At each stage

Confirm the gain, celebrate it, and set the next step.

elmy LEARNING SOLUTIONS

Elmy powers the plan: your practice, assignments and error log live on the platform, visible to you, your instructor and your family between sessions.

DELIVERED BY TESTPREP

Test Prep

One team, in your corner.

Every part of this plan, from the diagnostic and the lessons to the checks and the simulations, is delivered by TestPrep on the Elmy platform. One point of contact, one team, one accountability for getting Alex to 1,300.

Precision in the plan. Mastery at every step. Belief in the student. That is the TestPrep difference.

DISCOVER THE FAMILY

The same thinking, everywhere students grow

The precision behind this plan runs through everything House of Prep makes: brands that help students discover who they are, prepare with intent, and perform when it counts.

weguide.™

Helps students discover who they are before choosing who they'll become.

prepme.

Guided study and structured prep for every student.

taleb

University, made manageable.
